NOTICE TENDERERS/ PUBLIC

There is an on-going scam where the imposters use the name of Mr G M Sineke calling bidders and asking for money in exchange for the award of a tender.

The municipality does not call bidders with regards to tender award. As per the Municipal Finance Management Act (MFMA), the municipality publishes an intention to award prior to the final award after the appeal period; the municipality communicates with the successful bidder in writing.

Bidders/ tenderers are therefore warned of this scam and are advised to record the details of the caller and report to the municipality. Bidders are also warned about the fake appointment letters and are encouraged to communicate with the municipality using the published contact details.
